Tilburg, Netherlands

01.2016 – 06.2016

WORK EXPERIENCE:

2CoolMonkeys

IT Solutions Development Intern

Utrecht, Netherlands

01.2018 – 07.2018

- Working on a research project in developing a weather information system for farmers in rural Africa.
- Working as a research master student in applying innovation to designing, developing and implementing the system.

Anchor Dataware Solutions

Technical Business Analyst

Abuja, Nigeria

07.2016 – 08.2017

- Worked as a business analyst, in the development of various applications including an integrated web and mobile application for the Nigerian government.
- Designed each system by specifying system requirements, developing processes designs, database designs and relationships, constructing the flow of data and information throughout the system, etc.
- Was promoted to an IT Projects Manager after working for two months with the company and led my team in the development of various software systems. Worked closely with my team in developing and testing the applications, and also work to ensure that all deadline and requirements were met.

NYSC Community Development Service

Community Volunteer

Abuja, Nigeria

01.2017 – 08.2017

- Helped with sanitation and environment protection, by helping with trash collection at various locations across the city. As well as participating in sustainable activities like tree planting.
- Worked with road traffic control agents in areas without traffic lights to help in the control of traffic.
- Participated in a group on HIV/AIDS sensitization. By making campaigns to draw more awareness to HIV/AIDS.

Ozyegin University

Intern, Quality Assurance Department

Istanbul, Turkey

06.2015 – 09.2015

- Acquired extensive information on accreditation systems and standards, through thorough online research.
- Extracted, collected, analyzed and prepared institutional data, documents, and information required by AACSB - (an accreditation and quality assurance organization).

- Created database tables, views, functions, and prepared internal & external reports relating to accreditation projects.
- Was involved in developing an Accreditation page for the university website, in terms of required information and designs.

Credit Europe Bank

Intern, IT/ MIS Department

Bucharest, Romania

07.2014 – 08.2014

- Worked in the IT department with the Information Systems team, and learned about the various systems created by the team in order to make the creation and documentation of monthly bank reports easier.
- Reviewed and helped with the debugging of codes implemented in these systems. Also learned how these systems and the computers all around the bank are maintained by the IT and MIS team.

Ministry of Agriculture

Intern, Accounting Department

Lokoja, Nigeria

07.2013 – 09.2013

- Was an assistant to the Administrative Officer.
- Created and sent out Memos for meetings to all required parties for the meeting.
- Was responsible for taking Minutes of Meetings in the absence of the Administrative Officer.
- Managed the administrative task of preparing, compiling and filing of documents, letters, etc.
